

TouchDMIS will showcase the latest software innovations at IMTS 2026

FOR IMMEDIATE RELEASE – July 15, 2026

TouchDMIS team will exhibit at the International Manufacturing Technology Show (IMTS) 2026, taking place September 14-19 at McCormick Place in Chicago, USA. As the largest manufacturing technology trade show in the Western Hemisphere, IMTS brings together the innovations, sellers, and drivers of the manufacturing world to connect and discover new solutions.

At IMTS, the TouchDMIS team will demonstrate the full software capability, featuring 5-axis technology powered by Renishaw REVO and PH20, a complete smart factory solution with the integration of the LK Metrology iSF shopfloor CMM with Fanuc cobots, laser scanning integration, and an innovative full-touch interface, to support a broad range of applications.

Show details:

- **Dates:** September 14–19, 2026
- **Location:** McCormick Place, 2301 S Lake Shore Dr, Chicago, IL 60616
- **Booth:** #134379 – East Building, Level 3
